Attention: DWP, Pensions Officer.

I understand my National Insurance contributions are the basis for my entitlement to a UK State pension.

If constitutional changes within the UK results in Scotland becoming an Independent country, does that political change in circumstances in any way effect my current entitlement to a UK State pension?

If I chose to live elsewhere other than the UK or Scotland, would that change in my circumstances effect my entitlement to a UK State pension?

I declare that the information I have provided is correct.
